## Missing Children Guidance for Schools

The purpose of this guidance is to ensure all instances of children missing from school are responded to in the same way across the county. It is the school's responsibility to ensure a child whose whereabouts is unknown and cannot be ascertained, is reported missing to the police. Whilst it is important for parents/carers to be notified of this, it should not be assumed that this is solely the parents/carers responsibility to notify the police.

Please ensure the below process is followed for children whose whereabouts is unknown and cannot be ascertained.

For general advice or guidance surrounding this, please contact the missing children coordinator for Directorate of Health, Wellbeing and Children's Services via [Missing.children@suffolk.gcsx.gov.uk](mailto:Missing.children@suffolk.gcsx.gov.uk). Please note: **this inbox should not be used to report children missing. Missing reports should be made via 101 or in an emergency situation 999.**
